FIND A COMMON LANGUAGE

Your voice is essential during conversations with the school, leisure organizations, ... because you know your child best. **Your expertise** helps shape the necessary **support and makes inclusion possible**. In this flyer, we have gathered tools to help you find a **common language**, in order to strengthen your role as a parent.

Translation application and sites

Digital, on your **phone** or **computer**

Translate **words** and **sentences**

Artificial Intelligence (AI)

Intelligent computer programs (AI)

Digital, on your phone or computer

Understands, simplifies and **translates** texts

Interpreters

A person who translates the **conversation**

In real life or through the phone

Someone you know (friend) or a professional interpreter

Visual dictionaries

Available on your **phone** or **computer**

Visuals with **corresponding words**

EXAMPLES

Translation application and sites

- Google Translate (Google Lens)
 - DeepL
 - Vertalen.nu
 - iTranslate Voice
 - Microsoft Translator
- e.g. Hello (ENG) - Merhaba (TR)

Artificial Intelligence (AI)

- Chat GPT
- Gemini
- Copilot
- Lees Simpel (application)
- Schrijf Simpel

→ e.g. Copy and paste into the AI: "Translate 'school' into Turkish and give a short explanation in simple language. Provide a clear image to make this easy to understand."

Interpreters

- Bring someone you trust with you
- If possible, a professional interpreter is the best option for difficult conversations

→ **TIP: A meeting with the CLB? They can request a professional interpreter.**

Visual dictionaries

- Babadada (digital)
- FACT-app (application)
- Visual dictionaries on meertaligheid.be (digital)

→ **TIP: Use AI to create images illustrating words, concepts, ...**
